Engine Control Systems Business Acquired by Catalytic Solutions, Inc.

NEWMARKET, ON, January 8, 2008 – Engine Control Systems announced today that the sale of the company was completed to Catalytic Solutions Inc. of Oxnard, California on December 21, 2007 and as was originally announced on Dec 3, 2007. This announcement confirms that made by Catalytic Solutions Inc. which can be found at the following link - http://www.catalyticsolutions.com/pdf/Completion_of_ECS_Acquisition.pdf .

Engine Control Systems has two North American locations in Newmarket, Ontario (headquarters) and Reno, Nevada, which will continue to operate under the name Engine Control Systems (ECS) (<http://www.enginecontrolsystems.com>). Engine Control Systems Europe AB located in Malmo, Sweden (<http://www.ecseurope.se>) will also continue to operate under its current name. "We are extremely pleased to have Catalytic Solutions Inc. as a partner in this transaction as it insures ECS will be well capitalized with the financial resources to invest in its business and increase its commitment to new product development to meet rapidly growing opportunities in the emissions reduction market", said Ed Richards, President and CEO of ECS.

ECS is a leading supplier of emissions control products to regulated and unregulated markets in North America, the European Union, and developing countries. Many of the ECS products have verifications issued under various programs established by the United States EPA, California Air Resources Board, Sweden Environmental Zones, Swiss VERT, UK Energy Savings Trust and other governmental agencies around the world. ECS does not anticipate any material changes to its relationships with customers, current suppliers or regulatory agencies.

About Catalytic Solutions:

Catalytic Solutions, Inc. (CSI) is an advanced materials science company focused on the creation, manufacture and supply of catalysts for motor vehicle (gasoline and diesel engines), energy applications (gas turbines, boilers, and gensets) and petrochemical and refinery applications. For information on Catalytic Solutions, visit them on their website at: <http://www.catalyticsolutions.com>
