**Engine Control Systems Launches School Bus Page!**

**Thornhill, ON**, March 13, 2009 – Engine Control Systems (ECS), a Catalytic Solutions Company, is pleased to announce the launch of their School Bus Page. This page can be found on the Engine Control Systems website at [www.enginecontrolsystems.com/schoolbus](http://www.enginecontrolsystems.com/schoolbus). The site provides information on how ECS products can help the school bus market along with ECS's verifications with both the California Air Resources Board and the U.S. Environmental Protection Agency. There is also a section for links and news, where you can click on the map to see the most recent website for Clean Air School Bus programs within your state and check out any links that relate to making the air cleaner for your children.

Read more about ECS's products – Purifilter™, Purifilter Plus™, AZ Purifiers™ and Closed Crankcase Ventilation Systems to understand how our products can help you. These filters and catalysts can help make a world of difference for cleaner air for your employees and the environment.

Check out ECS's most recent verified product, the Purifilter Plus™, which is the first verified hybrid diesel particulate filter which combines the passive ECS Purifilter with the active regeneration components of the ECS Combifilter.

**About Engine Control Systems**

Engine Control Systems is a leading environmental **applications engineering** and manufacturer specializing in the design and manufacturing of a full range of verified exhaust treatment solutions. Globally, we offer a full range of products for OEM, Aftermarket and retrofit markets for the reduction of exhaust emissions of on-road, off-road and stationary diesel, gasoline and alternative fuel engines including propane and natural gas. For more information, please visit our website at [www.enginecontrolsystems.com](http://www.enginecontrolsystems.com).

**About Catalytic Solutions:**

Catalytic Solutions, Inc. (CSI) is an advanced materials science company focused on the creation, manufacture and supply of catalysts for motor vehicle (gasoline and diesel engines), energy applications (gas turbines, boilers, and gensets) and petrochemical and refinery applications. For information on Catalytic Solutions or this release, visit them on their website at: <http://www.catalyticsolutions.com>
